Measuring & Ordering Instructions

Information on measuring

1. Always use a metal rule.
2. Decide whether you wish to fix the blind on the inside or outside of the window reveal/recess.
3. On inside recess, measure width & drop in several places, always order the smaller size (all allowances will be made in the factory).
4. On outside recess blinds, we recommend a 3" overlap on each measurement, and order blind size (on a roller blind this will be pin or cloth width).

Information on ordering

Roller Blinds

- A) Width.
- B) Drop.
- C) Recess, pin or cloth (see diagram).
- D) Fabric code.
- E) Shape, finish & braid (if required).
